TAM International Strengthens Management Team
Strategic Appointments Support Western Hemisphere and Global Objectives

HOUSTON – December 7, 2015 – TAM International, an independent oilfield services company providing inflatable and swellable packers to the oil and gas industry, announces strategic changes in its U.S., Latin American, and global leadership roles.

Tim Davis has been appointed Global Technical Director for TAM, overseeing global technical support for operations, training, product line management, and marketing. He previously held the position of Global Product Line Manager for Cement Integrity. Tim joined TAM in 2006 and has over 30 years of experience in the oil and gas industry. Prior to working for TAM, he spent 19 years in the wireline industry in both cased hole and open hole markets. He has authored numerous technical articles for oil and gas journals and professional societies. Tim is a graduate of Texas A&M University with a Bachelor of Science degree in Petroleum Engineering.

Marty Coronado joined TAM International in November 2015 as Engineering Director. Prior to joining TAM, Marty was Vice President of Engineering at Hydrawell US and spent 31 years at Baker Hughes where he held various engineering, research, and upper management roles within the Technology group focused on inflatable packer systems, open hole and cased hole completions, well intervention, liner systems, and sand control. Marty currently holds 69 United States patents, has authored over 30 industry technical papers and publications, and is an active member of the Society of Petroleum Engineers.

TAM also appointed Art Loginov as Director of Latin America for Western Hemisphere operations. Art joined TAM in 2011 as Global Technical Manager, where he oversaw the technical aspects of cement integrity, inflatable service tools, and swellable technology, and provided support to R&D, sales, and operations. Prior to joining TAM, he served as Regional Manager for Weatherford in its Asia Pacific region, based in Kuala Lumpur. Art has 34 years of experience in the oil industry in open and cased hole completions.

Mike Bealeau has accepted the role of Business Development Director for TAM US. Mike brings a diverse background and over 25 years of industry experience to his new position. Mike joined TAM in Houston as Product Line Manager for Frac Systems in 2014 and has a strong diverse background within the oil and gas industry. Mike previously held a number of technical, sales, and operations roles during his career at Halliburton and other companies. His experience in both offshore and land applications will aid him in his new role directing sales efforts and launching new products in the US markets.

“These key leadership appointments will reinforce our global business strategy and objectives, positioning TAM to better meet the needs of our customers,” said Michael Machowski, Chief Operating Officer.
