

# TAM International Announces Strategic Partnership with WellFirst

## TAM International and WellFirst Enter into Agreement to Supply Products and Provide Installation Services in Alberta, Canada

TAM International is pleased to announce it has reached an agreement with WellFirst to be the primary agency and supplier of installation services for TAM products in province of Alberta.

This partnership will effectively allow TAM to increase tool availability in multiple Alberta locations and WellFirst is able to expand their product line for clients in Alberta. WellFirst will also be performing the majority of installation services for TAM clients within the provincial boundary.

The dynamic state of energy industry requires creativity and team work to grow businesses and increase companies' footprints with minimal expenditures. We are very pleased as this new partnership provides both TAM and WellFirst the opportunity to grow and continue to provide both client bases with focused, service-oriented support.

"TAM International is very happy to be partnering with WellFirst on this initiative in Alberta. This collaborative partnership will be supported by each companies' sales, operations, and management teams. This is a great opportunity for both companies and our respective clients. I have no doubt it will continue the strong history of TAM products and service in Alberta."

Dylan Winkler  
Director of Canadian Operation- TAM International

"WellFirst is proud to have been chosen for this partnership. We are committed to the continued success and growth of the TAM product line."

John MacDonald  
Sales Manager – WellFirst
